Databases: SQL

## PROJECTS / OPEN-SOURCE

---

### News app

*HTML, CSS, JAVASCRIPT*

- Developed a dynamic and responsive news application that fetches real-time news articles from an external API based on user-selected categories and search queries.
- Added dark mode for better user experience in different lighting conditions.
- Enabled article bookmarking for saving favorite articles.
- Displayed related articles to encourage further reading.

### Social media app

*React, Firebase, JavaScript, CSS*

- Developed a full-fledged social media application with real-time features and a responsive design.
- Secure user login and registration using Firebase.
- Users can create and share posts with text and images.
- Real-time chat functionality.

## CERTIFICATIONS

---

- Object-Oriented Data Structures in C++ - **Coursera**
- Web development - ARDENT COMPUTECH PVT. LTD..
